## ITHO 3-IN-1 TAPS

Itho Daalderop develops, manufactures and sells heating, hot water, ventilation and control technology solutions. Our mission is to provide innovative products and systems that contribute to a comfortable, healthy and energy efficient indoor climate. Every day we strive to make the indoor environment a more enjoyable place for people to work and live.

The Itho tank stores 5 litres of boiling water under 10 bar of pressure ready to be dispensed in an instant, saving you time and money not only when making hot drinks but also when cooking a meal or sterilising a babies bottle or utensils.

### 3 TAPS IN 1 - BOILING, HOT & FILTERED COLD

Not only does the Itho system provide 100° boiling water, it also delivers hot and filtered cold water from the same spout so there is no need to purchase a separate tap unlike some stand alone systems. This not only saves the cost of purchasing a separate tap but also improves the look of the kitchen.

## MARKET LEADING TANK

The ltho 3 in 1 boiling water tap system includes a market leading 5 litre tank as standard capable of producing around 60 cups of boiling water per hour, ideal for domestic requirements. The 10 litre version for heavier usage requires only a cold water feed to run the 3 in 1 tap making it ideal for situations where it is difficult to connect a hot feed e.g. Kitchen Island
