Kompact **KlickFloor** Innovative Flooring System

Each vinyl floor tile recreates the subtle textures of natural wood and stone. Bringing a warmth and quality to any room in your home.

The Floating Floor System is brought to you by Kompact. It does not require any of the panels to be fixed or glued to the floor.

The flooring uses a licensed and patented Uniclic tongue and groove system, allowing each piece to be locked perfectly into place for a stunning finish.

When the product is fitted into place it will provide the same aesthetics as a 'glued down luxury floor', without all the preparation work and the fitting hassles you would associate with glued down flooring.

Whatever your taste, Whatever your space ...

Bring warmth and character into every room of your home with the authentic natural look of Klickfloor luxury vinyl flooring. Hard wearing enough for demanding public spaces and busy homes, beautiful enough to make any floor magnificent, there's a Klickfloor design for you - whatever your taste and whatever your space.

- Moisture-resistant - perfect for slippery areas such as kitchens or bathrooms
- Scratch and scuff resistant - due to a unique Protectonite PU wear-layer
- Slip resistant - featuring a top R10 rating
- Easy to clean and maintain - just a simple brush or mop
- Great at sound and heat insulation - no more cold stone under your feet
- Easy to install - thanks to KLiCK technology; no adhesive, no fuss
- Dependable and durable - with a 20 year guarantee available
- Environmentally friendly - made with 50% recycled materials with major eco-credentials
- Designed to reflect unique textures and patterns found in natural wood and stoneflooring - be sure to view Impress which features a unique registered emboss texture

whatever your taste ,
whatever the space ...
